SUMMARY

Diligent and skilled Frontend Web Developer with expertise in HTML and CSS. Proficient in creating visually appealing and responsive web designs. Familiar with Tailwind CSS for efficient and streamlined development. Strong attention to detail and a passion for crafting engaging user experiences. Ready to contribute fresh perspectives and creativity to a dynamic development team.

EDUCATION —

Bachelor of Technology
Computer Science

Maharaja Agarsain Institute of
Technology , Delhi

EXPERIENCE

I have hands-on experience developing projects utilizing HTML, CSS, and Tailwind CSS, effectively translating design concepts into functional and aesthetically pleasing web interfaces. Additionally, I volunteered at an international symposium, contributing to seamless event coordination and enhancing attendee experiences. These experiences have honed my technical and collaborative skills, making me a versatile and dedicated Frontend Web Developer.

KEY SKILLS —

- HTML
- CSS
- Tailwind
- C++

PROJECTS

Razorpay Clone:

- Developed a Razorpay clone using Tailwind CSS and HTML, ensuring a user-friendly and responsive frontend interface.
- Developed a visually appealing and responsive user interface, ensuring seamless navigation and optimal viewing experience across different devices and screen sizes.
- Demonstrated proficiency in Tailwind CSS, HTML, and frontend development, contributing to the successful delivery of a feature-rich financial platform.

Portfolio Website:

- Created and designed a dynamic portfolio website utilizing HTML and CSS, incorporating various animations, links, and buttons to enhance user engagement and interactivity.
- Implemented innovative design elements and transitions to showcase project samples and professional information, resulting in an aesthetically pleasing and engaging online portfolio
